To Whom It May Concern:

It is a pleasure for me to write a letter of recommendation for Devin Baughman. Devin has been employed in the Technology Departments at Wenatchee Valley College since August of 2020.

During his time at WVC, he has been able to show strong technical abilities. Mr. Baughman continually earns the respect of his co-workers with his technical skills. He is always anticipating future problems and works to avoid them with efficient methods.

Furthermore, I can add that his perseverance is what has made him grow while working at WVC. He always manages to finish all the projects he begins, even the most difficult ones. He does this by using multiple techniques, different technologies and always staying abreast of new technology trends.

During the time Devin has worked at WVC, I have always been impressed with his outstanding diligence and his high level of expertise. I have been more than satisfied with his working relationship with others in the department. Not only is Devin highly intelligent; he is also very hard-working. He has tackled every project assigned to him with enthusiasm and competence. He consistently produces superior quality work, and always on time. He is a true example of what employers want: accountability and always responsible, with a superior work ethic and a high degree of integrity.

In closing, I recommend Devin Baughman for the Technician 1 position at Douglas County PUD. He will do his very best to do an outstanding job for whomever he works with. If I may be of further assistance in regards to Devin, please feel free to call me at 509-682-6558 or contact me by email at MBRYANT@WVC.EDU.

Sincerely,

A handwritten signature in black ink that reads "Maureen Bryant". The signature is fluid and cursive, with a long horizontal stroke at the end.

Maureen Bryant
Technology Manager
